

Settings for systems that do not support WPAD

What are the preferred settings for Linux software that does not support WPAD? Is proxy.ruf.uni-freiburg.de:80 still the right address to use? — [yz1000](#) 2011/08/25 09:29

Please use:

```
export ftp_proxy=http://proxy.uni-freiburg.de:8080/  
export http_proxy=http://proxy.uni-freiburg.de:8080/  
export https_proxy=http://proxy.uni-freiburg.de:8080/  
export no_proxy="localhost, 127.0.0.1, .uni-freiburg.de, .privat, 10.,  
132.230."  
export SOCKS_SERVER=proxy.uni-freiburg.de:1080
```
