

Applying for permissions when you can't access files of module

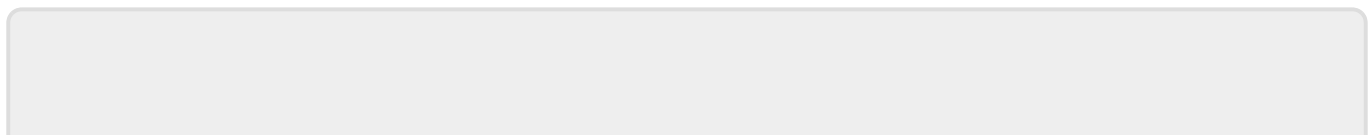

Applying for Group membership to access restricted files

Some files are accessible only by privileged users. To get access to such content, you have to sign up for a „group membership“ by following the **Memberships** link on the top navigation bar after being logged in with your own user account. Now you're able to search a group using the input field or browse all groups via **Available Communities**. If you found what you were looking for, click the  **Request Membership** button to apply for membership. After submitting your request, a „Modul Administrator“ will answer as soon as possible via email. Already joined groups are listed under **Communities I Have Joined**.

Name	Type	Members	Online Now	Actions
Advanced AI Techniques WS 20042005	Restricted	1	0	Actions
Advanced AI Techniques WS 20052006	Restricted	1	0	Actions
Advanced Silicon Technology SS 2012	Restricted	23	1	Actions
Advanced Topics in Algorithms and Datastructures SS 2005	Restricted	1	0	Actions
Advanced Topics in Algorithms and Datastructures SS 2006	Restricted	1	0	Actions

List of available communities/groups.
