

HOWTO: Make a Bug Report

If you found a Bug in the current Electure-Portal or if you think there is an important feature missing, here is a guide which should help you understand how to make a good Bug Report. There are only a few steps that need to be done in order to make a Bug report:

- Creating a User-Account in the Bug Tracker
- Logging in to the Bug-Tracker
- Creating a Bug Report

Before entering a Bug report, please first read through the [Frequently asked Questions](#) and existing bug reports. Read it all very carefully. Developers get annoyed by duplicate Bug reports.

Creating a User-Account in the Bug-Tracker

First of all, you need to create an Account in the [Bug Tracker](#). The following images illustrate the process of registering at the Bug Tracker:

Login	[Login Anonymously]
Username	<input type="text"/>
Password	<input type="password"/>
Remember my login in this browser	<input type="checkbox"/>
Secure Session	<input checked="" type="checkbox"/> Only allow your session to be used from this IP address.
<input type="button" value="Login"/>	

[[Signup for a new account](#)] [[Lost your password?](#)]

From the first Page, click on Signup for a new Account.

Signup	
Username:	<input type="text"/>
E-mail:	<input type="text"/>

On completion of this form and verification of your answers, you will be sent a confirmation e-mail to the e-mail address you specified.
Using the confirmation e-mail, you will be able to activate your account. If you fail to activate your account within seven days, it will be purged.
You must specify a valid e-mail address in order to receive the account confirmation e-mail.

[[Login](#)] [[Lost your password?](#)]

Fill in all the required details (choose a username you won't forget) and pay attention to specify your correct E-Mail address.

Account registration processed [Guest - hermann@informatik.uni-freiburg.de]
<p>Congratulations. You have registered successfully. You are now being sent a confirmation email to verify your email address. Visiting the link sent to you in this email will activate your account.</p> <p>You will have seven days to complete the account confirmation process; if you fail to complete account confirmation within seven days, this newly-registered account may be purged.</p>

[[Click here to proceed](#)]

You will see a result similar to this after filling up the form. You now have to wait for a confirmation E-Mail which will be sent to the E-Mail address you specified when registering.

[Mantis] Account registration

Von: Mantis Bug Tracker <electures@informatik.uni-freiburg.de> (Universitaet Freiburg, Institut f. Informatik)
An: hermann@informatik.uni-freiburg.de
Datum: Heute 18:50:32

Thank you for registering. You have account with username 'Guest'. In order to complete your registration, visit the following URL (make sure it is entered as the single line) and set your own access password:

http://electures.informatik.uni-freiburg.de/bugs/verify.php?id=6&confirm_hash=3ea973ea6c1119e704c9e523585d7688

If you didn't request any registration, ignore this message and nothing will happen.

DO NOT REPLY TO THIS MESSAGE

After receiving the E-Mail click on the confirmation link.

***Category** Bug

Reproducibility always

Severity crash

Product Version 0.1

***Summary** Portal DB-Transfer creates wrong path for Filetypeconfigurations

***Description**
 It might be the case, that we get a FTC.path like this: Slides/aait-, so the FTC.path should always end with a path, not a filenamepart.

Report Stay (check to report more issues)

* required

Then fill in all the details that are necessary to understand your Bug report. First select a category: Choose *Bug* for errors you found. Select *Improvement* for anything that should be done better that is neither an error, nor a new feature. Select *New Feature* for any new features you want to see in new versions of the portal. Task should not be used by end-users. Please fill in all other fields very carefully, and choose *Summary* and *Description* wisely. Then click on *Submit Report*.
